Summary

Motivated and self-taught software developer with two year of hands-on experience in building robust web applications using MERN stack technologies. Demonstrated ability to learn quickly, adapt to new technologies, and thrive in independent and collaborative environments. A "can do" attitude with a passion for creating innovative and impactful solutions. Eager to contribute skills and expertise to a dynamic development team.

Skills

- **Front-End:** React, JavaScript, HTML, CSS, Bootstrap, Styled-components
- **Back-End:** Node.js, Express.js
- **Database:** MongoDB Atlas
- **APIs:** RESTful APIs, third-party API integrations, Mpesa Daraja API
- **State Management:** Redux
- **Tools:** Git, GitHub, Docker
- **Other:** Responsive Web Design, User Interface (UI) Design

Work Experience

Bidmania Ventures | Nairobi, Kenya | August - Present

- Implemented back-end functionality, MongoDB databases, and integrated M-Pesa online payment using Daraja API.
- Collaborated with cross-functional teams to deliver high-quality, user-centric features.

Education

Moi University | Eldoret | 1998 - 2004

- Degree in Mechanical Engineering

Projects

1. **Hospital Management App**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, MongoDB Atlas

2. **Billy Travels App**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, MongoDB Atlas, Daraja API
3. **Lowest Unique Bidding App**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, MongoDB Atlas, Daraja API
4. **Payment Tracking App**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, ExcelJS
5. **Business Management App**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, MongoDB Atlas
 - GitHub: [Repository](#)
6. **Online Bidding App**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, MongoDB Atlas, Mpesa-Daraja API
7. **E-commerce App**
 - Link: [Project](#)
 - Technologies: ReactJS, CSS, HTML
8. **Event Ticketing App**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, MongoDB Atlas, Mpesa-Daraja API
9. **Travel and Tours**
 - Link: [Project](#)
 - Technologies: ReactJS, Node.js, Express.js, MongoDB Atlas
10. **Portfolio**
 - Link: [Project](#)
 - Technologies: ReactJS, CSS, HTML
11. **Weather App**
 - Link: [Project](#)
 - Technologies: ReactJS, CSS, HTML
 - GitHub: [Repository](#)
12. **Quiz App**
 - Link: [Project](#)
 - Technologies: ReactJS, CSS, HTML
 - GitHub: [Repository](#)
13. **Calculator App**
 - Link: [Project](#)
 - Technologies: ReactJS, CSS, HTML
 - GitHub: [Repository](#)
14. **Movie App**
 - Link: [Project](#)
 - Technologies: ReactJS, CSS, HTML
15. **Recipe App**
 - Link: [Project](#)
 - Technologies: ReactJS, CSS, HTML

16. Redux Counter Todos App

- Link: [Project](#)
- Technologies: ReactJS, Redux, CSS, HTML

17. Radio Lottery App

- Link: [Project](#)
- Technologies: ReactJS, CSS, HTML

18. Random Quote Bot

- Link: [Project](#)
- Technologies: ReactJS, CSS, HTML
- GitHub: [Repository](#)

19. Random Recipe Generator

- Link: [Project](#)
- Technologies: ReactJS, CSS, HTML
- GitHub: [Repository](#)

Accomplishments

- Developed responsive UIs with React and styled them using CSS, Bootstrap, and Styled-components.
- Implemented authentication and authorization using JSON Web Tokens (JWT).
- Created and managed MongoDB Atlas databases.
- Fetched and displayed data from external APIs using Axios.
- Developed APIs using Express.js and Node.js.
- Implemented payment integration using Mpesa Daraja API.
- Used Redux to manage states.
- Learned deployment and hosting on platforms like Render and Netlify.

Expectations

- Eager to work on challenging projects that promote growth and creativity.
- Values collaboration and teamwork for achieving exceptional results.
- Seeks projects that align with ethical standards and positively impact people's lives.
- Open to continuous learning and adapting to new technologies.
